

# Get UDMI Site Model Metadata

---

This program facilitates getting metadata files from a source repository containing a UDMI site model.

## Usage

---

```
./get_udmi_sitemodel_metadata.py \  
  --site_id COUNTRY-CITY-BUILDINGID \  
  --destination_path ./udmi_sitemodels \  
  --repo_url git@github.com:faucetsdn/udmi_site_model.git
```
